

ROUGH SERVICE XL

- The longest-lasting Rough Service lamp in the industry
- 5000-hour average rated lamp life
- Popular A19 shape
- Available in various wattages
- Inside frost finish
- Medium brass base
- Durable 5 support Rough Service Filament

SYLVANIA Rough Service XL lamps are built tough to withstand shocks and are engineered for long life to pass the test of time.

SYLVANIA's Rough Service XL lamps are built to last. The special 5 support filament is designed to last a long 5000 hours and withstand the abuse of rough service applications.

These long-lasting specialty bulbs, especially well-suited for rugged use, are designed primarily for "high amplitude/low frequency" shocks. The lamps are built to withstand bumping, banging and rough handling, often experienced on the ends of extension cords in garages and machine shops.

SYLVANIA Rough Service XL lamps are available in 60, 75 and 100 watt versions among the A and P lines, with a frost finish.
